19 - Which characteristics of Yanssel Garcia or course have been most valuable to your learning experience? -

Response Rate	4/23 (17.39%)
<ul style="list-style-type: none"> • I really liked how he interacted with the students and how engaging the discussions were. I really like all the different aspects of a person can determine their life meaningful. • He seemed very interested in what he was talking about and always answered questions to the best of his ability. When students couldn't find the time for office hours he was still available by email to give feedback on upcoming assignments. • I know many opinion of the life • I think we get enough time to write our papers, which is very good. He does a very good job at engaging the class which is another thing that I love. He's really funny in class which I love because people are too serious in life. The writing workshops would help out a lot if we had everyone in the class have a rough draft ready although I know it is not the teachers fault they did not have it done. I liked the topics that we talked about, they all do a good job at making me think about life. 	

20 - Which characteristics of Yanssel Garcia or course are most important for him/her to improve upon? (particularly aspects not covered by the rating items) -

Response Rate	4/23 (17.39%)
<ul style="list-style-type: none"> • I really liked discussion based lectures because those were the most fun and engaging, I learned more through discussion and it would be nice if he did that more often. • Explaining some of the words he used when explaining different theories. I was unsure what certain words meant. • I think he is great teacher • When it came to the writing workshops, I was only in a group one time where the other person had a draft for me to read. That kind of left me with nothing since I was not able to read someone elses paper for help on my own with ideas. I also don't like how much reading there is. For a 1010 class, there is almost more reading than my 2120 class, which I find ridiculous. There are also not enough points in the class, which is why I think there should at least be a chance for extra credit. Which there was only one time where we got a chance for extra credit for showing up to class. He also states that attendance is mandatory, yet we don't get graded on attendance. For such a small class, with little points, I think that would help out a lot considering how barely anyone showed up to class.
